

CHESS WORKSHOP

Presented by: Jay Wu

PREVIOUS WORKSHOP

- Advanced tactics
- Tempo moves
- Middlegame and endgame tips

OVERVIEW

- Attacking puzzles
- Beating strong opponents
- Hope chess
- Creative plans
- An online game to apply what we learned

ATTACKING TIPS

- Do not give your opponent time to solidify his position
- When attacking the king, make sure he cannot escape to safety
- Play tempo moves

HOW TO PLAY AGAINST GOOD CHESS PLAYERS

- Try to reach positions that are more comfortable for you (safer)
- Do not play recklessly
- Take your time on complicated moves
- Stay calm

WHAT IS HOPE CHESS?

- Hope chess: Playing moves in which you are hoping your opponent does not give the best response
- NEVER play hope chess

THINK CREATIVELY

- The best ideas are usually hardest to find, so always think outside the box
- There is often a way to convert a loss to a draw, a draw to a win, and sometimes even a loss to a win
- The best chess players are also the most creative

WHAT TO DO NOW

- Puzzles, any kind of puzzle
- Play online for more experience (slow time control)
- Watch high level games
- Find a local chess club
